

## Acknowledgments

In preparing the manuscript, we have been aided by Nina Leech, Marjorie Olson, and Beverly Weintraub, who have corrected and typed repeated versions with great care. Cleo Youtz helped us enormously with the references, as did Elaine Ung. John Emerson, Katherine Godfrey, Katherine Taylor Halvorsen, David Hoaglin, Marjorie Olson, and Cleo Youtz also advised us about other matters. Donald B. Rubin has kindly given permission for the reproduction of parts of tables from some of his work on matching and adjustment.

William Cochran's original work was partly facilitated by a grant from the National Science Foundation, and the preparation of this manuscript has been partly facilitated by National Science Foundation Grant No. SES 8023644.
